

Matador Certified Chat AI for Stellantis Dealers

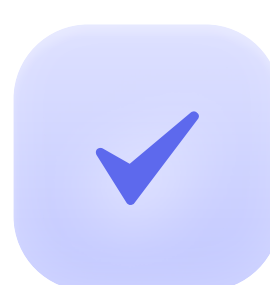

100% Co-Op Eligible (T3AC)

You Already Have the Traffic. Now Capture It.

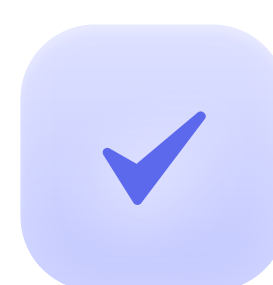

Your dealership is already investing in traffic through programs, marketplaces, and paid media. Every day, shoppers land on your website, browse inventory, and leave without ever submitting a form.

What Matador Chat AI Changes

Matador Chat AI engages every visitor the moment they land and turns passive browsing into active conversations. From the second a shopper arrives:

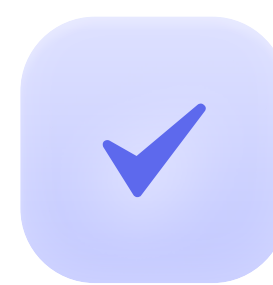

Instant, real-time responses

Seamless lead capture directly into your CRM

Natural, context-aware conversations based on the exact vehicle, page, and shopper behavior

Appointment scheduling for sales, service, and test drives

Automated SMS follow-up after the chat ends

Full conversation history synced to your CRM

Smart reminders with Google Maps directions to your dealership

Fully customizable to match your dealership's voice and workflows

Built for How Dealerships Actually Sell

Matador Chat AI doesn't just chat. It moves deals forward:

Provides ePrice and payment information in real time

Sends personalized follow-ups to keep buyers engaged

Supports video messaging to create a more personal touch

Automatically detects and responds in English, Spanish, and French

Dynamic, intent-based greetings that adapt to every shopper automatically

The Gap Isn't Traffic. It's Response.

The dealers winning right now aren't getting more traffic. They're converting more of the traffic they already have.
